

GRATEFUL *like mom*

Mother's Day Campaign 2020

To be totally blunt, I have my mom around today because of the generosity of so many people that **I'll never meet**. Her breast cancer journey started a little over 4 years ago and while it has not been easy by any stretch of the imagination, she did not have to go through traditional chemotherapy and radiation which was an incredible blessing.

The **research and awareness** spread by organizations like **Susan G. Komen®** has had an incredible impact on my mom. She is happy and thriving and we are so grateful to this community that has given us so much. My mom is **More Than Pink™** and an **incredible warrior**.

Help us pay it forward so no one has to suffer the full effects of this terrible disease.

Dustin Williams, son of Breast Cancer Survivor
